#### NO REGISTRY FOR FOREIGN BUILT SHIPS

WASHINGTON, D. C., Special.

John Sharp Williams, of Mississippi, made a second attempt today to have an amendment incorporated in the Panama Canal bill admitting to American registry all ships of foreign construction owned by Americans.

Senators Lodge and Root opposed the amendment on the ground it will put practically every shipyard in this country out of business and cause a transfer of all the construction of this nature to foreign shipyards.

fer of all the construction of this nature to foreign shipyards.

The Williams amendment was defeated by a vote of 38 to 10, after a discussion in which Williams and Senator Martin, of Virginia, clashed.

The latter opposed the Williams plan of opening coastwise trade to foreign ships on the ground it would destroy American shipbuilding.

"I am surprised," asserted Williams, "that a Virginia Senator and a Democrat should make a protection speech."

Senator Martin immediately in-

terrupted to deny the right of Williams to construe his remarks as advocating protection. He dis-claimed all principles of protec-

Senator Gronna, Republican (insurgent), took the side of Wil-liams, arguing he favored any measure which will tend to equal-ize all classes of shippers. Senator McCumber, North Dakota, opposed the Williams plan, declaring the shipbuilders of this

country cannot compete with those of foreign countries and need protection.
Williams' Senator Williams' second amendment to the bill was carried

The United States forces in Nic-

Justin will sail from Panama to-morrow, with 350 marines. The rebels, however, are safely enseonced in the central part of the republic and it would be diffi-

cult for the American troops to reach them without making an extended campaign through the cane brakes and swamp lands of the interior. Such a course would antagonize

the natives and, as in the case of Mexico, the United States is con-fronted by the question of making a bluff on the border or invading the country and facing a possible concerted resistance,

Railroad and telegraphic communication being entirely cut off by the rebels, it is impossible to obtain authentic news from the interior of Nicaragua, and Minister Weitzel today reported to the State Department that he feafed for the safety of Americans in the central part of the State.

It is not probable, however, that the United States forces will be ordered to advance, unless absolute word reaches here that Americans are in danger in central

#### STEEL DRILL STRUCK DYNAMITE CHARGE

NEW YORK.— Special.—Two men were killed, three fatally and six others seriously injured, when a steel drill, working 266 feet below the surface of One Hundred and Sixth Street and Central Park West struck a dynamite charge and caused a terrific explosion. The men were working on the new Aqueduct caisson, Shaft No. 2, of the new waterway, which is to cross One Hundred and Sixth Street and Central Park West. They were blasting the solid rock, deep under the street, to make the tunnel west in One Hundred and Sixth Street to Manhattan Avenue, where the route leads north.

The Pari-mutuel machines for betting purposes in the horse racing sport had their origin in the abuses of the bookmakers in France, which were no greater and no less than what we have had to contend with in America. In 1886 the owners asked the government for the suppression of the bookmakers. It was done, but then they found that racing without betting would not pay, and, in 1891, the Parimutuel system was evolved. The racing law then passed was as follows:

#### INVADING ARMY CAPTURES BOSTON

STRATFORD, CONN .- Special. With Boston theoretically fallen, the invading Red army in the war maneuvers is being flung out today in its advance on New York, while the line of Blue de-fenders is being drawn up to op-pose it. Although hostilities are not to commence until tomorrow, the invaders moved northward of New Haven today in an attempt to cut off the water supply of New York city.

This was regarded as an important strategic move in the early hostilities designed to render New York helpless before the invaders.
However, the Reds have been

masking their movements so systematically that they have suc-ceeded in keeping the Blues in partial ignorance of their where-abouts. In theory they have cut off communication between New York and Southern points

#### ALFRED WRIGHT GRANTED REPRIEVE

ALFRED WRIGHT DID NOT GO TO DEATH CHAIR FOR INFAMOUS CRIME.

RICHMOND, VA.-Special.-

RICHMOND, VA.—Special.—
Though he is said to have made a full confession, Alfred Wright, the Apportantox negro recently found guilty of criminal assault, was not electrocuted this morning as the court had decreed.
Governor Mann last night, at the suggestion of Judge R. H. Cardwell, of the Supreme Court, granted him a respite for a month to allow the court, which meets in Staunton next month, to consider certain technical questions raised by the negro's attorney.
Duncan Drysdale, counsel for the negro, called at Governor Mann's office yesterday morning with the plea that his client had not been sufficiently identified. The Governor refused to interfere, however, having been advised of the man's confession.

Later the Governor received a telegram from Judge Cardwell, who evidently did not know that the negro had admitted his guilt, and acting upon the judge's suggestion the Governor granted the respite.

The telegram received from Judge Cardwell was as follows:

"Hanover, Va., Aug. 8, 1912.
"Hon. William Hodges Mann, Governor, Richmond, Va.:
"The evidence not in the record, it being conceded, as understand from counsel, that there was sufficient evidence to sustain the verdict, so I considered the record only with reference to the question, whether the haste in trial amounted to a denial of a fair trial and reached the conclusion that I would not be justified in granting writ of error. I would be better satisfied, however, if the full court reached the same cenclusion. But that Judgment cannot be gotten unless a respite is granted till after the court meets at Staunton, and whether that is proper under the circumstances is for your determination.

"R. H. CARDWELL."

Governor's View.

The Governor seems to be placed by the morning papers, in the position of granting respite to Alfred Wright after he had made a full and free confession of guilt. In fact, the

At present the feelpts of the clubs have increased in a very great proportion and the total amount of money invested in the Pari-mutue plans reached the sum of \$350,000,000 a year, providing in that way \$20,000,000 of or added money on racing and \$14,000,000 for State's income annually.

today.

A prominent Tammany Hall politician is quoted as saying that "Police Commissioner Waldo's days of officialdom are numbered" and that "New York will have a new commissioner within three weeks."

Chief interest today in the police graft scandal centered upon the condition of Lieutenant Charles A. Becker, the police official under indictment for Rosenthal's murder.

According to some reports,

According to some reports,
Becker is on the verge of collapse
in the Tombs and is ready to
make a complete confession of
the connection between the police system and the underworld. On the other hand, these re-

ports are offset by others stating that Becker's iron nerve remains unshaken and that he is preparing to fight to the last ditch.

Those who have visited Becker in his cell and have talked for publication afterwards say that the indicted official is standing firm and has no intention of making any statement in the na-

firm and has no intention of making any statement in the nature of a confession.

In support of the reports that Becker is weakening is a report that John F, McIntyre, chief counsel for the accused official, called upon District Attorney Whitman and made overtures to ascertain if Becker could get a sentence of less degree than life-imprisonment for telling all he knows of police relations with the criminal classes.

McIntyre returned to the Tombs and it is said that Becker collapsed and wept bitterly. This was taken to indicate that Becker had received an unfavorable answer to any advances he may have made to the District Attorney through his lawyer.
